2019-2020 STEAM lessons with P.3 and P.4 "Promotion of hands-on, engaging and fun lessons"

This year, both P.3 and P.4 students have experienced interesting STEAM-related lessons with our NET Miss Angel, and the P.3 and P.4 English teachers. We all agree that the incorporation of STEAM elements has really helped to increase students' level of motivation. The important 4 Cs (critical thinking, communication, collaboration and creativity) of learning were practised effectively throughout these lessons. Some pupils were even able to apply what they've learnt from General Studies lessons to the reasoning behind the experiments done during the NET lessons! See for yourselves:

LOOKING BACK --

Mr Cam

Over the past two years we've done many fun, interesting, challenging and memorable things together. We played games like "Who Touched My Thumb?", Pictionary, Charades and many more. We had relay races and made cookies in the Super Fun Campus. We starred in our own dramas, The Three Little Pigs and The Dragon Tree, and we made our own costumes and props. We also wrote and illustrated and shared our own unique creative stories.

I am very proud of the students of ASPCPS and the work they put in to make school a fun and engaging learning and growing experience. I also admire and respect the hard work and care that each of the teachers and staff put into each day at this fine school. I look forward to the day I get to see all your bright faces again. Stay safe and positive.

Consulting Editor: Principal Ho Hoi Yiu, Helen

Assistant Editor: Connie Chan

Feature Writers: Angel Bow, Cameron Moore

COLLABORATION and CREATIVITY
Students discussed, created and presented their funny pizza faces.

CRITICAL THINKING
Use of multi-media to stimulate students' critical thinking.

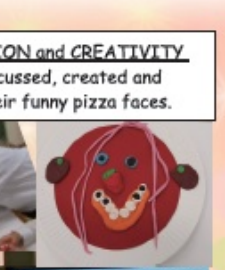

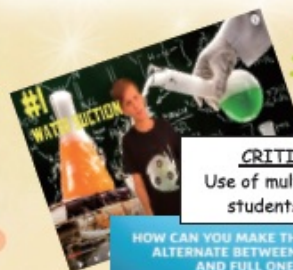

HOW CAN YOU MAKE THE GLASSES ALTERNATE BETWEEN EMPTY AND FULL ONES?
(ONLY ONE GLASS SHOULD BE TOUCHED)

COLLABORATION and COMMUNICATION
Communication enabled us to complete the experiments successfully. YEAH!

Fun Food to Make and Eat

SCAFFOLDING
Interesting non-fiction readers to introduce topics.

SUSPENDED CLASSES WITHOUT SUSPENDED LEARNING

The Importance of Self-Learning

The issue of self-learning has been a hot topic globally for many years and even more critical as the Coronavirus pandemic continues. Teachers endeavour to find ways to help students continue their learning, using digital resources to create learning experiences that enable students to learn by themselves at their own pace. Although there are many advantages to e-learning, let's see what the students of our school have said about their journey. We used NEARPOD's Collaborate Boards to gather their thoughts and feelings about COVID-19, the difficulties they have encountered and how they have used their time to upgrade themselves and their relationships with family members:

Tracy Cheung
I have made some handicrafts at home in these 3 months.

Jason Man
In the past few months, I started playing the guitar and it's not been as easy as I thought. My fingers got so tired. I also watched TV and movies with my parents. It has been a good way to relax.

Kenny
In these few months, I have been having Zoom lessons, doing the online homework and studying one new chapter every day. I also learned how to cook some simple meals and played Chinese chess with my dad.

Tony OU
Before COVID-19, I used to go to the library once a week to read and borrow books. But now I cannot do that.

Chan Cho Kiu Charlie
I learnt how to cook pancakes. They are delicious. I learnt how to use Zoom to study and talk with my friends. Actually, I spent a lot of time watching TV and playing popular games like Animal Crossing with my daddy...very interesting.

SA Mavis
I prepared a timetable for myself. In the morning, I have Zoom lesson. After the lesson, I do the internet homework and exercise. In the afternoon, I play games and read storybooks. At night, I watch TV. I go to bed at 10 pm and get ready for the next day.

JIA YINGHAN
I recommend "BBC.com" to my classmates because it can give us objective and timely news reports.

Bruce Wong
In the past few months, I have drawn many pictures with my little sister. We gave them to our parents.

Ma Tsz Chun
I would like to recommend "learnenglishkids.britishcouncil.org" because it has a lot of useful videos and interactive games that can help you to improve your English.

FUN CORNER

It's important to give students a variety of ways to learn English authentically and let them know English is useful and fun. Let's learn more about the Coronavirus:

Word Hunt

The answers to the crossword are hidden in here. Words can be found across, up and down.
